

# SOCIALIST APPEAL

INTERNATIONAL  
MARXIST  
TENDENCY  
SOCIALIST.NET

Socialist Appeal fights for a socialist programme within the movements of workers and youth, providing a Marxist voice through our paper, theoretical magazine, website, and the production of the classic books of Marxism.

All of this requires finance and we need to further expand our resources to meet the challenges facing us. At this current time of crisis and austerity there is a greater need than ever for a socialist alternative. But Socialist Appeal has no rich backers. Instead, we rely on the kind donations from our supporters and sympathisers.

Please consider making a regular donation to Socialist Appeal to allow us to continue the fight for socialist policies. Even a small monthly donation can make a big difference, allowing us to increase the quantity (and quality!) of our analysis, produce more educational material, and host a greater number of Marxist schools.

Big business has the full backing of the mainstream media to promote their ideas. We rely on your support to ensure that the socialist alternative has an even greater voice.
